Forward Thinking. Excellence Driven.

Designed and manufactured in South Africa, our robust stainless steel dispenser is fully mechanical.

With a simple push of the lever, sanitiser is dispensed meaning minimal contact, preventing contamination. Use as either a stable stand-alone unit or can be bolted to the ground. It's very sturdy, vandal proof, suitable for indoor or outdoor use and compatible with standard push top or pump top.

BENEFITS & FEATURES

- Easy release mechanism for changing sanitizer bottles
- Fits most standard pump bottles
- Stainless steel outdoor housing (3CR12)
- Vandal resistant and lockable
- Robust and hardy for industrial and public environments/applications
- Dual bottle for santiser plus soap or two santiser etc.
- 300mm (h) x195mm (w) x 135mm (d)
